# PHYSICAL SECURITY VARIANT

Identify, Quantify and Manage your Risk

Securing your physical environment is an essential step to ensure the continued operational performance and security of your facilities. To counter the ongoing threats of theft, terrorism, assault and damage or destruction of key assets, Huntington Ingalls Industries offers the CounterMeasures® Physical Security Variant.

Based on technology developed for the Department of Defense, CounterMeasures analyzes and models vulnerability and risk to assist you with protecting your vital assets!

CounterMeasures provides a standardized, easy-to-implement approach for conducting security assessments for the unique environments of all your facilities, buildings, hardware, vehicles and sites. An all threats/hazards approach and a database of best practices ensure that

assessments effectively model an organization's risk and vulnerability level. CounterMeasures is built to perform enterprise-wide analysis, and generates automated reports to quickly and efficiently determine organizational risk.

## STANDARDS EMPLOYED:

- Federal Emergency Management Agency (FEMA)
- US General Services Administration (GSA)
- US Department of Justice (DOJ)
- US Coast Guard Maritime Security (MARSEC) Part 105
- US Coast Guard Maritime Security (MARSEC) Part 105 standard
- Anti-Terrorism/Force Protection (AT/FP) standard

### About Huntington Ingalls Industries, Technical Solutions:

Building on a legacy of more than a century of naval shipbuilding, Huntington Ingalls Industries' Technical Solutions division provides mission-critical national security solutions to a wide variety of government and commercial customers worldwide. Comprising more than 7,000 professionals worldwide, our unique national security services portfolio includes unmanned systems, nuclear and environmental services, intelligence, surveillance and reconnaissance (ISR), cyber and electronic warfare, live, virtual and constructive (LVC) training solutions, and fleet sustainment and logistics.
